

## Student Analyst - Financial Analysis and Controlling

Are you pursuing a degree within Business Administration, Accounting, or Finance? Do you enjoy working with numbers and want to be a part of one of the fastest growing shipping companies in Denmark?

Celsius Shipping offers an attractive position as student analyst to join our team in Copenhagen to work with financial analysis and cost controlling. You will become part of a dynamic and challenging environment with a steep learning curve and strong personal development opportunities.

Celsius was founded in 2012 as a full-service ship owning company focusing on infrastructure investments and special opportunities within the maritime industry. Together with our international equity partners we have built a strong presence in the major shipping segments via timely acquisition of maritime assets. Celsius currently has a fleet of 45+ vessels under management across chemical- and product tankers, container vessels and LNG carriers. The group currently employs approximately 50 onshore employees and more 700+ seafarers. Office locations include Copenhagen, Monaco, Hong Kong and South Korea.

Celsius is recognized as one of the leading maritime transportation investment platforms through our performance, our people and our commitment to delivering superior value to our partners. We are committed to taking active responsibility for the society and environment we operate in and are continuously working towards making ESG a central part of our strategy – from investments to operations.

### **About the job**

You will be a partner to our technical team and will be involved in cost optimization of operational expenses of our vessels, budgeting, controlling of financials and cash flow forecasting. Key stakeholders in your daily work are in large part based in our HQ in Hellerup but you will also have dialogue with our partners in Hong Kong. The Technical team currently consists of three colleagues, and you will refer to our Technical Director. In this position, you will gain deep insights into the maritime industry and broaden your analytical toolbox. You will also have an opportunity to co-shape the role based on your interests and capabilities.

As a person you are enthusiastic, collaborative and have a proactive attitude. We will make sure to give you the right 'on the job training,' so you can quickly contribute to the daily work. Agility and having an eagerness to learn is highly appreciated in the team.

**Key responsibilities:**

- Deliver financial support to the technical team
- Assist in budgeting process and in preparing full-year estimates
- Control of monthly cost overviews, invoices and commitments
- Identify and follow-up on cost drivers and cost initiatives
- Support on analyzing and preparing presentations to senior management and external partners regarding e.g. cost analysis and optimization
- Support on development of reports to ensure transparency on financial data to business partners
- Assist in periodic ESG reporting for our external partners
- Development of business cases on various investments
- Ad hoc tasks and analysis

**What you should bring to the team:**

- You are at the mid/end of your Bachelor studies or start of your Master study in the field of Economics and Business Administration, preferably in Finance and/or Accounting
- You have experience in Microsoft tools (required), especially Excel
- Excellent communication skills in both spoken and written English, proficiency in a Scandinavian language is preferred
- You have a flair for numbers, attention to detail and a structured working approach
- You enjoy teamwork and collaborating with all layers of the organization, including our international partners

**We offer:**

- A competitive salary package and employee benefits
- An opportunity to work in a dynamic and international environment
- A challenging and rewarding job with a high degree of responsibility
- The opportunity to be part of a successful team with competent and supportive colleagues
- Working hours are 15-20 hours per week with flexibility around exam periods

**Application:**
